- Determining the structure and design of web pages.
- Ensuring user experience determines design choices.
- Developing features to enhance the user experience.
- Striking a balance between functional and aesthetic design.
- Ensuring web design is optimized for smartphones.
- Building reusable code for future use.
- Optimizing web pages for maximum speed and scalability.
- Utilizing a variety of markup languages to write web pages.
- Maintaining brand consistency throughout design.
- Maintaining software workflow management
- Looking at SEO best practices
- Testing the site for usability and fixing any bugs

Qualifications:

- Degree in Computer Science or related field.
- Understanding of key design principles.
- Proficiency bringing concepts to life with HTML, CSS, and JavaScript
- Understanding of server-side CSS.
- Experience with graphic design applications such as Adobe Illustrator.
- Experience with responsive and adaptive design.
- Understanding of SEO principles.

Soft Skills:

- Good problem-solving skills.
- Excellent verbal communication skills.
- Good interpersonal skills.

At Paradox Security Systems Loyalty is our pride, 50% of employees have been part of Paradox's team for more than 10 years.

Paradox offers a competitive salary and excellent conditions helping employees to achieve a work-life balance and offers great benefits including Group Insurances, RRSP contribution,

Progressive Retirement Program, Referral premium, Financial aid for training and development course and reimbursement of professional association membership and Recognition years of service gift.
