

Senior .NET Software Developer - Job opening Ref410022021

Paradox Security Systems a High-Tech leading company in the world security for over 30 years with global sales to over 65 countries.

Working at Paradox means joining a dynamic, motivated, and competent team that takes the creation of an excellent product to heart. It also means being part of a team that creates innovative and stable systems and develop challenging projects with evolving technologies. We are looking for a passionate person who will have the opportunity to realize the concepts through his expertise and see the projects materialize. You will have the opportunity to see our products come to life in our manufacturing facilities. At Paradox Security Systems Loyalty is our pride, 50% of employees have been part of Paradox's team for more than 10 years.

Responsibilities:

- Design, build, and maintain efficient, reusable, scalable and reliable code.
- Integrate data storage solutions with SQL Server, PostgreSQL.
- Provide and assist with end user technical support.
- Identify bottlenecks and bugs, and devise solutions to mitigate and address these issues.
- Write unit tests to improve code coverage.
- Help maintain code quality, organization, documentation, and automation.
- Diagnose and trouble shoot problems.
- Participate to scrum meetings.
- Ability to meet delivery dates for all development projects.
- Estimate work effort for development tasks and determine technical requirements, time estimates and development schedules at a project level.

Qualifications:

- Hold a college or university degree in Computer Science, Computer Engineering or equivalent.
- Have a minimum of 5 years of experience in information technology and as an .Net developer.
- Have a strong knowledge of .NET web framework.
- Be proficient in C#, ASP, ASP.NET, JavaScript, HTML, CSS with a good knowledge of their ecosystems.
- Experience with Python and integration with PostgreSQL are an asset.
- Ability to use and integrate with Microsoft SQL Server.
- Proficient use of code versioning tools such as Git.
- Ability to work with CI/CD and tools like Jenkins.
- Knowledge of Atlassian software suite (JIRA, Confluence) and Agile/Scrum framework.
- Master of IDEs like Visual Studio, JetBrains tool suite.
- Ability to write clean, scalable code using .NET programming languages.
- Being up to date with the terminology, concepts, and best practices for coding .NET apps.
- Knowledge of REST APIs and design/architectural patterns (e.g., Model-View-Controller (MVC)).
- Bilingual (French and English).

Soft Skills:

- Show autonomy and leadership.
- Be analytical and solution oriented.
- Have a team spirit.
- Take initiatives.

You will be joining our MIS team where there is a sense of unity in a great work environment. We offer a competitive salary and excellent conditions helping employees to achieve a work-life balance.

We also offer great benefits including Group Insurances, RRSP contribution, Progressive Retirement Program, Referral premium, Financial aid for training and development course and reimbursement of professional association membership and Recognition years of service gift.
