

Fullstack .Net Software Developer - Job opening R03052021

Paradox Security Systems a high-tech leading company in the world security for over 30 years with global sales to over 65 countries.

Working at Paradox means joining a dynamic, motivated, and competent team that takes the creation of an excellent product to heart. It also means being part of a team that creates innovative and stable systems and develop challenging projects with evolving technologies. We are looking for a passionate person who will have the opportunity to realize the concepts through his expertise and see the projects materialize. You will have the opportunity to see our products come to life in our manufacturing facilities. You will be joining our MIS team were there is a sense of unity in a great work environment.

As a .Net Software Developer, you will be brainstorming with coworkers to identify solutions and work on challenging projects such as the migration on premise based applications to cloud infrastructure as AWS, and improve the database performance.

Responsibilities:

- Design, build, and maintain efficient, reusable, scalable and reliable code.
- Write clean, scalable code using .NET programming languages.
- Create and maintain Rest APIs.
- Integrate data storage solutions with SQL Server, PostgreSQL.
- Provide and assist with end user technical support.
- Identify bottlenecks and bugs, and devise solutions to mitigate and address these issues.
- Write unit tests to improve code coverage.
- Help maintain code quality by using code reviews, organization, documentation, and automation.

Qualifications:

- Bachelor's degree in computer science or software engineering.
- Minimum of 3 years' experience as .Net software Developer.
- Proficient in C#, ASP, and ASP.NET with a good knowledge of their ecosystems.
- Strong knowledge of .NET web framework and .Net core (an asset).
- Ability to use and integrate with Microsoft SQL Server.
- Proficient use of code versioning tools such as Git.
- Knowledge of REST APIs and design/architectural patterns (e.g.: Model-View Controller (MVC)).

At Paradox Security Systems Loyalty is our pride, 50% of employees have been part of Paradox team for more than 10 years.

Paradox offers a competitive salary and excellent conditions helping employees to achieve a work-life balance and offers great benefits including Group Insurances, RRSP contribution, Progressive Retirement Program, referral premium, financial aid for training and development course and reimbursement of professional association membership and Recognition years of service gift.
